Social history

I was born on 03.03.1982. in Bar, Republic of Montenegro (former Yugoslavia). In Ulcinj, Montenegro, I finished primary school and the Gymnasium. Medical School University of Belgrade I entered on 2000/2001 school year and graduated on Jun 2007.

I got employment at Emergency medicine centre of Montenegro in July 2007.

Training in Emergency medicine I started in October 2009, and passed the state exam with highest grade in January 2014.

During residency, I started to train in regenerative medicine and blood management.

In different hospital (government and private) as a consultant, I did more than **4000** various procedures, mainly those of using PRP, PRP gel and stem cells in orthopedics, wound care, esthetics and open heart surgery.

Main subjects of interest:

Research, emergency medicine, autologous biotherapies, (stem cell therapy, PRP therapy)

With respect, sincerely

Džihan Abazović
